

# What is Life?

Join us for an evening of talks and discussion exploring the nature of life, on this planet and beyond.

Composition of the speaker panel:

Samir Okasha (University of Bristol)  
What is Life? A philosophical perspective.

Lee Cronin (University of Glasgow)  
Why the origin of life had to be inorganic.

Lewis Dartnell (University College London)  
Astrobiology: the search for life on other worlds.

EMBL-EBI Science and Society event
